UNIFROG

Unifrog brings into one place information about all post-school opportunities, including every apprenticeship and college course in the UK, as well as other opportunities, such as School Leaver Programmes. The Careers Library contains up-to-date labour market information for over 1300 different careers, with details about the required skills and qualifications for each one. Students can record their key skills and achievements, and build up an impressive portfolio over time. Students also have access to the Unifrog platform for 10 years after they have left Abbey College.
