Dear Parents/Carers

Update letter for families – 29th April

This week, students have had assemblies explaining our approach towards teaching and learning. Staff gave an overview of the research and methodologies currently being used in classrooms. Students were also asked if they would like to be part of a new group, who will become our Learning Ambassadors. This may be of particular interest to those pupils who may be thinking of a career in teaching or simply want to improve their presentation skills.

Equally important, is the need for staff to make use of student feedback on the quality of teaching and the curriculum. The Learning Ambassadors will be used to provide constructive feedback that will inform our staff training and the curriculum development.

Keeping with the theme of feedback, last week I provided a link to our simplified communication processes. Please do take a moment to take a look at the flowchart should you need to get in touch. You can access the flowchart on our website [here](#).

I want to remind families that we have also introduced a new way of communicating with the school, called the **Parent Forum Guarantee**, and the following image from our flow chart explains how this works.

PARENT FORUM GUARANTEE

 The Parent Forum Guarantee gives all parents the right to speak directly to the Headteacher. You can use your Parent Forum Guarantee by calling 01487 812352 or emailing the school office@abbeycollege.cambs.sch.uk with 'Parent Forum Guarantee' in the subject header.

 You will be contacted initially to arrange a convenient time for your call and the Headteacher will personally ring you by the end of the next school day. If you would like a follow up meeting, this can occur within 72 hours after the initial phone call, if requested.

Please read on for essential updates.

Assessment

- End of year assessments will take place in the summer term. Year 9 assessments will begin next week from 03.05.22 and Year 7 assessments in the following week. Details of all of the assessments should now be on Teams.

Disruption to learning

As you are aware, our focus for behaviour this half term is in removing any low-level disruption from our lessons. Thank you for your support in speaking to your child about this. We have already seen the number of *tells* given for disruption drop significantly. If your child is given a tell for disruption then please continue to discuss with them the reason for this which they will have been asked to write in their book.

Cannabis edibles

The LA are actively raising awareness to parents and young people across Cambridgeshire and Peterborough to the harms of 'cannabis edibles'. Cannabis edibles are foods/sweets/cakes/chewing gum that contain THC, a derivative of cannabis.

Cannabis edibles are illegal and can be really strong, they are not regulated, meaning anyone taking them could face an unknown consequence. The products are cleverly packaged to a professional standard, designed to look like authentic confectionary products and therefore particularly appealing to young people. Although cannabis edibles may contain cannabis, they do not always have the smell or appearance of cannabis. Instead, they look and smell like a normal branded shop bought item but can be much stronger than other cannabis products. We are also aware of vapes that may contain cannabis products that could also be harmful.

There have been local incidents whereby young people have become unwell after eating sweets, chocolates, lollies, chewing gum, gummies or other products. Sadly, a recent death in London is being linked to cannabis edibles, the product potentially containing a cannabis related product.

We urge parents and young people to be vigilant and to have conversations about the risks of taking products that they do not know as being trustworthy, and therefore, are deemed as unregulated. These products are easily accessible for sale both on the internet and locally. These products (including vapes) have a high risk of unpredictability of health consequences; some edible products take time to take effect, other products may take immediate effect. Regardless, the consequence could have a life-threatening impact to your child.

The police continue to work with schools and local communities to inform parents of this ongoing concern. For further information on cannabis please visit this national website www.talktofrank.com/drug/cannabis

Parent Governor Vacancy

The primary role of a governor is to challenge and support the school leadership. However, they offer so much more, such as: providing professional knowledge (based on their own work experiences), coaching and mentoring, monitoring how the school is improving, collecting first-hand information and engaging with the community. We have an exciting vacancy for a Parent Governor. For more information click here:
