### Opportunities for Young People

#### Travel for less

Cambridgeshire & Peterborough Combined Authority Board (CPCA) continues to deliver on its pledge to improve the bus network after an investment package was presented to its Board on Wednesday (20th).

The package includes the introduction of new services as well as improvements to existing routes – many of which were suggested by residents who took part in a survey in December. These 30 new routes and improvements are now being worked on with a view to being introduced as soon as possible.

Additionally, there will be a £1 fare for people under 25 years of age – helping them to get a good education and access to better jobs and training programmes. This will commence early summer.

You can see the full press release at [£1 fare](#)

#### Virtual Work Experience

We know that it is not always possible to find work experience that is in your local area in a career that you are really interested in. Virtual work experience may be the answer. You can find out more about the career you are interested in from the comfort of your own PC. You can find out more and register at:

## ARMY HIGHER EDUCATION PATHWAY

Officers provide the Army with the leadership and direction needed to overcome pressing challenges in the UK and across the globe.

University is not for everyone, and most Officer roles do not require a degree.

However, if it is a degree you want, minus the student debt the Army offers a fully funded BSc Leadership and Strategic Studies course in partnership with the University of Reading. Your 44 weeks at the Royal Military Academy Sandhurst will contribute towards a third of your degree, which you can then complete over the next three to six years.

You can find out more about the range of training opportunities with the army at [British Army Learning and Development](#)
